

Coca-Cola Enterprises

www.cocacolabelgium.be - www.cokecce.com/careers

Coca-Cola Enterprises (CCE) is the third largest bottler of products from The Coca-Cola Company (TCCC). CCE produces and distributes products from both TCCC and other brands in Belgium, France, Great Britain, Luxemburg, the Netherlands, Sweden and Norway. More than 13 000 people work for CCE. You may already have come across us at music festivals where you could take back your empty PET bottles in exchange for fantastic prizes. Sustainable business is an integral part of our company strategy and it plays a role in everything we do.

From energy saving in our coolers and reducing water consumption, through the wide range of refreshing products to the creation of a safe, healthy working environment for our personnel, in which diversity has a valuable place.

In Belgium and Luxemburg, CCE provides jobs for roughly 2 600 people across 11 locations, including three production sites (Ghent, Antwerp and Chaudfontaine) and two visitors' centres.

Each year, we achieve a joint turnover of more than € 1 billion.
